

**UNITED**  
MORE THAN  
**EVER**

Through the support from United Way of Northern BC, we are able to offer community engagement beyond Terrace like group services in Kitimat and transportation costs for clients in Prince Rupert to participate in group and services in Terrace. We are also able to support our clients with gas and grocery vouchers and PPE during the pandemic.

**United Way is so important because their funding supports frontline workers like me to reach more people with support services and injury prevention education!**
